

ALMERÍA, GRANADA, JAÉN, CÓRDOBA

MOZARABE ADVENTURE

PROJECT #1 • What does it consist of?

Almost 400 km of route to complete the challenge of joining Almería and Córdoba, crossing 3 capitals, 4 provinces and more than 30 towns. You can do it in less than 54 hours, self-sufficient, crossing Sierra de Gádor, Sierra Nevada, the desert areas of Guadix, the Zenete del Marquisado and the sea of olive trees of Jaén and Córdoba. It will take place on October 11, 12 and 13, 2024.

It is designed for adventurous spirits who seek to enjoy the sport they love, who seek to enjoy cycling and bikepacking away from the competition. You can sleep in one of the numerous hostels or shelters along the way, with your sleeping bag in the middle of the field or even not sleep at all!! you choose.

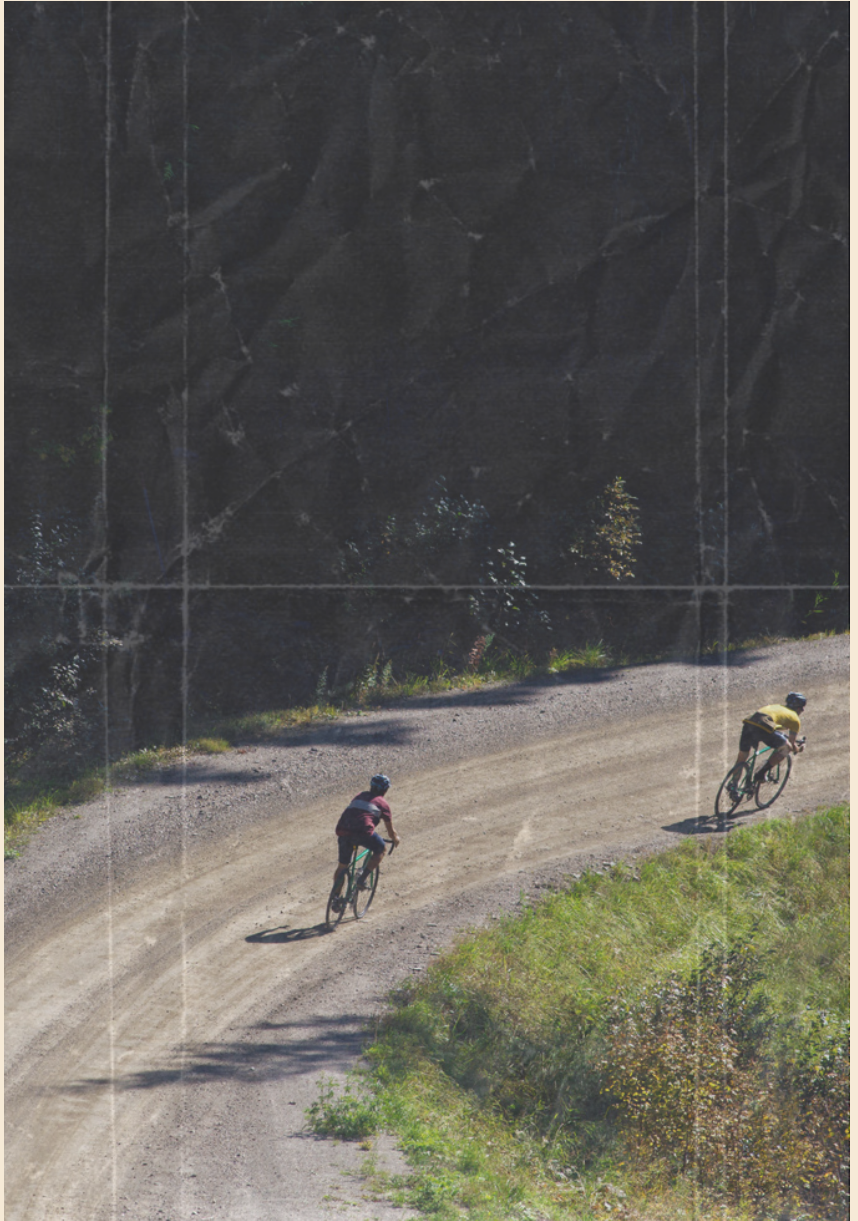

Departure from the historic Cathedral-Fortress of Almería in the historic center, where the Mozarabic Way to Santiago has its origin.

Here begins the adventure to connect the capital of Almería with the Mosque of Córdoba through almost 400km, with your bicycle and self-sufficiency. This path was born in the Middle Ages with the idea of linking Almería with Santiago de Compostela, the official Mozarabic path ends in Mérida, where the route called the silver route begins, which reaches Santiago de Compostela. Mozárabe Adventure travels part of this road to Córdoba capital.

You will find sections for all tastes. The track is suitable for both Gravel and MTB bikes, with practically no technical sections along the way, except at some exact points which will be specified in the roadbook.

The photograph corresponds to the surroundings of Alcalá la Real, province of Jaén. At this point the tracks have fantastic terrain where you can go fast and advance many kilometers, this terrain will be a trend practically until Córdoba.

To facilitate the return, two transports will be available. The first of them on Friday very early from Córdoba towards the exit (Almería). So whoever wishes can arrive in Córdoba with their vehicle the day before to have it available when they arrive in Córdoba once the route is finished. The second transport will leave two hours after the limit time ends (Sunday the 13th at 6:00 p.m.). The schedule may be flexible for some exceptional reason.

Bikepacking

Mozarabic Way of Santiago

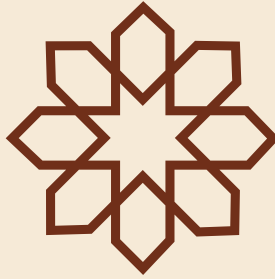

The Mozárabe path stands out for its variety, it travels through forests, trails, roads, desert areas and tracks. Throughout the track there are towns where you can stock up on food and drink every few kilometers.

A SPECIAL EVENT

On Friday morning the adventure will begin. It will be in the historic center of Almería, we will begin with breakfast while we proceed to the briefing and accreditation. The adventure will then begin at 10:00 am, with half an hour neutralized to leave the city safely. Once at the Mosque of Córdoba you will obtain your finisher. You will have 54 hours in total to complete the track.

There will only be 50 seats to offer a more personal experience, a more careful welcome pack and closer treatment, something that we believe has been lost with massive events.
